Dear Gary,

Thanks for your letter to Cohen of the Federal Bar.

It reminded me that I had offered a copy of Case Open to Costello if he did not get one from C & G.

Not having heard from him I wrote the enclosed.

May I suggest for the future that Rose ~~XXXX~~ Cheramie is one of the weaker cases to call to an editor's attention for a number of reasons and particularly when there is so much that will not suggest questions to them?

I'm sorry all over again that the book was as butchered as it was!

What is comparable with Cheramie surfaces on many major events, including the assassinations and editors tend to be leary of them.

Thanks for writing Eason. Expect company soon. I'll enclose what I write him.

Best,

Harold
